B.Sc. Computer Sciences

PROFESSIONAL SUMMARY

Performance-driven DevOps Engineer with 8+ years of experience in Software & IT, including **4+ years dedicated to DevOps**. Started career as a Mobile Developer where hands-on CI/CD automation sparked a passion for automation and infrastructure, leading to a full transition into DevOps. Currently serving as **Principal DevOps Engineer at ILI DIGITAL GmbH**.

- **Goal-oriented Certified AWS DevOps Engineer** with proven expertise across the full DevOps & Cloud spectrum, spanning cloud-native deployments, infrastructure automation with IaC, CI/CD pipelines, cost optimization, and security compliance, including **AWS Cloud Services** (EC2, Lambda, S3, RDS, Fargate, SNS, SES, CloudFront, API Gateway, DynamoDB, SQS, Cognito, Bedrock), **CI/CD & Automation** (Jenkins, ArgoCD, GitHub Actions, GitLab CI), **Infrastructure as Code** (Terraform, Terragrunt, Pulumi, CloudFormation, Helm), **Scripting & Automation** (Python, Bash, Linux, YAML), **DevSecOps & Security** (HashiCorp Vault, Cert Manager, Keycloak), and **Monitoring & Observability** (Prometheus, Grafana, AWS CloudWatch), delivering scalable, secure, and automated infrastructure across enterprise-grade platforms.
- **Hands-on Kubernetes (EKS) practitioner with 2 years of production experience** in container orchestration, cluster management, and GitOps-driven deployments using ArgoCD and FluxCD. Proficient in Helm and Kustomize for templating and multi-environment configuration management, Docker and Docker Compose for containerization, with a strong track record of designing and maintaining highly available, auto-scaling Kubernetes workloads in enterprise production environments.
- **Experienced in cloud and self-hosted database management** with hands-on expertise in deploying, configuring, and maintaining MongoDB, PostgreSQL, MSSQL, MySQL, and Firebase across AWS RDS and Kubernetes, ensuring high availability, automated backups, performance tuning, and disaster recovery for production-grade database workloads.
- **Accomplished Mobile Architect** with a proven track record of delivering **30+ enterprise and consumer-grade mobile applications** and with **4.5+ App Store ratings** for global clients across Europe, the Middle East, and Asia (e-commerce, fintech, healthcare, AR/VR, sports, and enterprise mobility); skilled in designing clean, scalable, modular architectures (MVVM-C, Clean, MVC, MVP) and applying TDD, unit, UI, and PAC testing for maintainable, high-performance apps.
- **Energetic, confident, and effective communicator** (both written & verbal), team leader, and analytical problem solver with demonstrated success in technical architecture, stakeholder collaboration, mentoring, and delivering end-to-end DevOps & Cloud solutions.

KEY PROJECTS

- **MongoDB on Kubernetes (EKS)** - Auto-scaling, highly available production database architecture.
- **Siemens CIAM (EKS)** - Enterprise Customer Identity & Access Management platform.
- **EC2 to Serverless Migration (AWS)** - Lambda/Fargate modernization cutting infra costs 35%.
- **StayX Microservices Migration (AWS)** - Decomposed monolith into 11 scalable microservices.
- **Elasticsearch Kubernetes Cluster (EKS)** - High-availability search & log infrastructure.
- **Apache Superset Deployment (AWS)** - Self-service BI & data visualization platform.
- **Zero-Downtime Blue/Green Pipeline (Jenkins)** - Automated CI/CD with instant rollback.
- **Terraform Infrastructure Automation (Terragrunt)** - Multi-environment IaC provisioning.
- **LLM Integration Platform (AWS Bedrock)** - Scalable LLM API deployment for enterprise apps.

- **PCI DSS Compliance** (AWS) - Secure, audit-ready, compliant cloud architecture.
- **Volocopter Pilot App** (iOS) - Aviation & mobility platform with CI/CD pipelines.
- **FinPay** (iOS) - FinTech payments app with automated CI/CD release pipelines.

CORE SKILLS & TECHNOLOGIES

Cloud Platforms: AWS (EC2, Lambda, S3, RDS, Fargate, SNS, SES, CloudFront, API Gateway, DynamoDB, SQS, Cognito, Bedrock, SageMaker, Textract)

CI/CD & Automation: Jenkins, ArgoCD, GitHub Actions, GitLab CI, FluxCD, Xcode Cloud, Fastlane

Infrastructure as Code: Terraform, Terragrunt, Pulumi, CloudFormation, Helm, Kustomize

Containers & Orchestration: Kubernetes (EKS), Docker, Docker Compose

Scripting & OS: Python, Bash, Linux, YAML

DevSecOps & Security: HashiCorp Vault, Cert Manager, Keycloak, SonarQube, Trivy, Gitleaks, OWASP, SAST, DAST, Dependency Scanning, PCI DSS, HIPAA

Monitoring & Observability: Prometheus, Grafana, AWS CloudWatch, Datadog

Databases: MongoDB, PostgreSQL, MSSQL, MySQL, Firebase

Mobile Development: iOS, Swift, SwiftUI, Objective-C, React Native, Flutter, Xcode Cloud

Practices: GitOps, Microservices, Serverless DevOps, Blue/Green & Canary Deployments, Service Mesh, Multi-Account Architecture, Cost Optimization, Disaster Recovery, High Availability, Auto-Scaling

Leadership: Technical Architecture, Team Mentorship, Stakeholder Collaboration, Problem-Solving

Languages: English, Urdu

PROFESSIONAL EXPERIENCE

Principal DevOps Engineer

Jan 2022 – Present

ILI.DIGITAL GmbH (Remote)

- Built and managed CI/CD pipelines using Jenkins, GitHub Actions, GitLab CI, and ArgoCD, cutting release cycles by **90%**.
- Deployed AWS cloud solutions with Terraform and CloudFormation, reducing infrastructure costs by **35%**.
- Deployed and managed Kubernetes (EKS) clusters with GitOps workflows using ArgoCD, FluxCD, Helm, and Kustomize for production-grade workloads.
- Deployed and managed AI/ML services including AWS Bedrock, SageMaker, and Textract for enterprise AI workloads.
- Implemented serverless and containerized architectures with AWS Lambda, API Gateway, and Fargate for scalable, event-driven processing.
- Designed and implemented secure CI/CD pipelines (Jenkins, GitHub Actions, GitLab CI, Fastlane, Xcode Cloud) with security controls embedded throughout the SDLC.
- Integrated SAST/DAST, dependency vulnerability scanning, linting, and automated compliance checks - using SonarQube, Trivy, Gitleaks, and OWASP checks for shift-left DevSecOps.
- Enforced PCI DSS and HIPAA compliance across cloud infrastructure, ensuring audit-ready and secure environments.
- Led migration from monolithic to microservices architecture, improving scalability and deployment flexibility.
- Implemented multi-region disaster recovery and cost-optimization initiatives, ensuring high availability and efficient cloud spend.

Lead Mobile Developer

Oct 2020 – Mar 2023

ILI.DIGITAL GmbH - Lahore, Pakistan (Hybrid)

- Delivered **15+ enterprise iOS apps** with clean architecture, scalability, and **4.5+ App Store ratings**.
- Migrated legacy apps from Objective-C to Swift, improving stability by **96%** and performance by **35%**.
- Built mobile CI/CD pipelines with Xcode Cloud and Fastlane, cutting release cycles by **90%**.

- Mentored and led iOS engineers, conducting code reviews that boosted code quality by **75%**.
- Scaled apps to **100K+ users** with optimized caching and network layers (<2% crash rate).
- Developed hybrid apps in Flutter and React Native with modular MVVM-C and Clean architectures.
- Integrated payment gateways, real-time chat (Socket.IO), push notifications, and secure auth (OAuth, biometrics).
- Delivered healthcare, fintech, and aviation apps meeting compliance, security, and performance standards.

Senior Software Engineer (Mobile Application Developer)

Feb 2019 – Oct 2020

ArhamSoft Pvt Ltd - Lahore, Pakistan (Onsite)

- Delivered **10+ complex iOS applications**, including ARKit-powered apps and AI-driven solutions.
- Migrated apps to MVVM architecture, enhancing maintainability and scalability.
- Developed real-time human pose tracking using ARKit 1/2, CoreML, and TensorFlow.
- Built a chat module for the Miryde app with Socket.IO for real-time messaging.
- Integrated third-party APIs (Google Maps, Firebase, payment gateways) and implemented CoreData/Realm offline storage.
- Optimized app store deployment workflows, reducing review/release issues by **40%**.

Software Engineer (Mobile Application Developer)

Jul 2018 – Feb 2019

Novatore Solutions Pvt Ltd - Lahore, Pakistan

Associate Software Engineer (Mobile Application Developer)

Jul 2017 – Jun 2018

Developers Clan - Lahore, Pakistan

EDUCATION

B.Sc. Computer Sciences

Aug 2013 – July 2017

University of Lahore - Lahore, Pakistan

CERTIFICATIONS & PROFESSIONAL TRAINING

- AWS Certified DevOps Engineer – Professional, Amazon Web Services (2025)
- DevOps with AWS, LinkedIn Learning (2024)
- Composable SwiftUI Architecture Using Redux, LinkedIn Learning (2024)
- Software Architecture: From Developer to Architect, LinkedIn Learning (2023)
- Scalable App Development & Modular Architecture, Udemy (2022)
- eVenture Solutions Certified iOS Mobile Developer, EVS Lahore (2017)
